FINAL PUPPET CHECKLIST

Have I sketched out my puppet design and thought about how I will make it?
Have I gathered all the materials I need, including fabric, stuffing, glue, and paint?
Have I sewn or glued all the pieces of my puppet together and added any necessary details, like eyes, nose, and mouth?
Does my puppet move and operate as intended? Can I move the arms and mouth easily with the rods?
Have I added any unique or creative touches to my puppet to make it stand out?
Have I cleaned up my work area and put away all materials after finishing my puppet?
Have I thought about how I will present my puppet to the class and prepared a brief explanation of its design and function?
